Legendary Runic Enhancement Ideas

For the mod-coa-lre module on your CoA Wildcard server. Reply with the numbers you want (for example: R1b, R2, R3, 7, 22, 51). Every idea uses spells and visuals that already exist in the 3.3.5 client, so none needs a client patch.

Effort is how much new server code an idea needs: Easy = one hook on an existing spell; Medium = a ground effect, a summoned helper or new timing (the Hallowed Path and Thunderous Gale tricks); Hard = new movement or projectile behaviour. Numbers such as damage percentages and radii are starting proposals you can change.
